Camelops is an extinct genus of camel that lived in western North America from the middle Pliocene to the end of the Pleistocene. It shares a common ancestor with the Old World dromedary and Bactrian camel (making it a true camel), as well as a more distant common ancestor with the New World alpaca, guanaco, llama, and vicuña. Its name is derived from the Ancient Greek κάμηλος (camelos ...

I've been arguing with my coworkers about Pascal casing (upper camel case) vs. lower camel casing. They are used to lower camel casing for everything from table names in SQL databases to property naming in C# code but I like Pascal casing better, lower camel casing for variables and Pascal casing for properties:

Polarized light can be used to examine repeated or crystalline structures. In a manner similar to DIC, plane polarized light that passes through a specimen will interact with the specimen and change its plane of polarization, allowing light to be detected through an analyzer located above the specimen and oriented at 90 degrees to the initial plane of polarization (for a more complete ...
