the essence of astronomy pdf

Essentialism is the view that every entity has a set of attributes that are necessary to its identity and function. In early Western thought Plato's idealism held that all things have such an "essence" – an "idea" or "form". In Categories, Aristotle similarly proposed that all objects have a substance that, as George Lakoff put it "make the thing what it is, and without which it would be not ...

Astrology and astronomy were archaically treated together (Latin: astrologia), and were only gradually separated in Western 17th century philosophy (the "Age of Reason") with the rejection of astrology. During the later part of the medieval period, astronomy was treated as the foundation upon which astrology could operate.
