Linguistics. Back-formation, the process of creating a new lexeme by removing affixes; Word formation, the creation of a new word; Mathematics and science. Cave formation or speleothem, a secondary mineral deposit formed in a cave; Class formation, a topological group acting on a module satisfying certain conditions; Formation (group theory), a class of groups that is closed under some operations

### **Formation - Wikipedia**

Overview. The existence of a topological defect can be demonstrated whenever the boundary conditions entail the existence of homotopically distinct solutions. Typically, this occurs because the boundary on which the conditions are specified has a non-trivial homotopy group which is preserved in differential equations; the solutions to the differential equations are then topologically distinct ...
