International law is the set of rules generally regarded and accepted in relations between nations. It serves as a framework for the practice of stable and organized international relations. International law differs from state-based legal systems in that it is primarily applicable to countries rather than to individual citizens. National law may become international law when treaties permit ...

The international community considers the establishment of Israeli settlements in the Israeli-occupied territories illegal under international law, because of the Fourth Geneva Convention of 1949 which states: "The Occupying Power shall not deport or transfer parts of its own civilian population into the territory it occupies." Israel maintains that it is not in violation of the Fourth Geneva ...

1. Early Developments 3 The origins of war crimes can be found in the traditional laws of war, today called international humanitarian law; these laws regulate the conduct of armed conflicts whose rules were derived from international conventions and customary international law. The evolution of war crimes is part of the progressive development and codification of international humanitarian ...
