

### **thinking in systems a pdf**

Overview of Systems Thinking Daniel Aronson systems thinking has its foundation in the field of system dynamics, founded in 1956 by MIT professor Jay Forrester.

### **Overview of Systems Thinking**

Systems theory is the interdisciplinary study of systems. A system is a cohesive conglomeration of interrelated and interdependent parts that is either natural or man-made. Every system is delineated by its spatial and temporal boundaries, surrounded and influenced by its environment, described by its structure and purpose or nature and expressed in its functioning.
